ACA/AAC [Action pour la créativité Artistique / Action for Artistic Creativity] is a Non-Governmental Organization. It was founded in 1985 by a group of Mauritian artists. It is affiliated with International Association of Art (IAA/AIAP) that operates under the aegis of UNESCO. This association was set up to unite artists, art teachers and those, whose activities are related to art, without any distinction whatsoever. Our organization conducts work sessions at different places where hidden talents would have the opportunity to display their creative abilities. Such activities are carried out quite regularly. These include exhibitions, workshops, seminars and other related activities to sustain regular links between artists and those interested in the promotion of art. The president of National Committee of AAC is Dev Anand Cooramun
